Sales Information: Like Verbatim's 2.4x DVD+R DL media, the new 8x DL media will almost double the storage capacity on DVD recordable discs from 4.7GB to 8.5GB on a single side while maintaining playback compatibility with the majority of the current DVD players, recorders, drives and burners.

Sales Information:

All the benefits of metal AZO with the added capability of writing at 8x speed. High quality sound with superb reliability.
